NEWS AND ANNOUNCEMENT

## ❖ THE : The World Academic Summit 2022

EURAS Bulletin Vol.3 No.13

World Academic Summit 2022 (Hybrid), Trajectories in higher education: Meeting rising expectations 10 -12 October 2022, New York, US.

THE World Academic Summit 2022, in partnership with New York University, will focus on the theme of trajectories. We will examine the role of higher education leaders and policymakers in identifying, adapting to and meeting rising expectations for progress in three different areas;

- Institutions.
- Students.
- Wider higher education sector.

THE's flagship annual summit will bring together some of the world's most influential leaders and researchers to discuss where higher education is headed and how it will contribute to these multiple trajectories at the individual level of student success, at the institutional level of pedagogical and research excellence and relevance, and at the sector level of meeting the needs of society and being viewed as a crucial player in a post-pandemic world.
