NEWS AND ANNOUNCEMENT

❖ **UNIMED - Open Call: Coimbra Group Scholarship Programme for Latin America, Sub-Saharan Africa, and the European Neighbourhood**

This Coimbra Group member universities have launched a scholarship programme aimed at young researchers and staff from universities in Latin America, Sub-Saharan Africa, and the European Neighbourhood. The programme offers 90 scholarships to young professors and researchers who are both national and residents of the aforementioned regions.

The scholarship programme will enable scholars to internationalise the research they perform at their home institution and establish academic and research contacts in Europe. The initiative will specifically support short-term research visits to one of the 20 participating universities on the European Continent.

How to apply

Applications for the scholarship programme should be submitted online through the official Coimbra Group website. Each regional scholarship programme has specific requirements, and a letter of acceptance must be provided by an academic supervisor at the host university.

The deadline for submissions is 7 April 2023 at midnight (Brussels time, UTC+01:00).

❖ **I. International Conference on Data Management, Digitization, and Economic Practices in Preserving and Promoting Cultural Heritage (DEPCH2023), which will be held for the first time this year by EURAS and Istanbul Aydn University, will take place on June 3rd, 2023. (online).**

This conference is based on the outcomes of the webinar named Data Management & Current Simulation Practices in Cultural Heritage Researches (DMCSPCH) on January 24th, 2022. Starting from founding conference 2023, it will be held in order to present academic studies on cultural assets in the international sense. İstanbul Aydın University will be the host of the conference. Researchers, academicians (from engineering, archaeology, communications fields) professionals, museum experts from fields related with cultural heritage, museum and their assets or people who works in different areas in terms of multidisciplinary connection with the context are all welcome. This is the founding conference and will be held once in every 2 years.

Topic Suggestions
• 3D Data Management and 3D Technologies on Web
• Virtual Museum and 3D Scanning Systems
• VR, AR, XR & MR Applications
• NFT Studies and Cloud Service Operands
